3.16

August 2005

Core Programs

Overview

MetroCount Traffic Executive is now comprised of three core components:

- MCSetLite for Roadside Unit management and control using hand-held devices in the field,
- MCSetup (formerly MCSurvey) for compiling Site Lists and RSU Configuration Lists, and desktop/laptop RSU control, and
- MCRreport for all data file management and analysis tasks.

MCSetLite

- Full locale and multi-language support.
- Configurable RSU support from Configuration List.
- Multi-channel RSU support.

MCSetup

- Configuration List compilation for configurable RSUs.
- Locale compliant Site Lists.
- Compressible image formats for Site List maps.

MCRreport

- Locale and multi-language support for reports.
- Amalgamation of MCFiler's file management tools into one program.
- Tabbed view.
- Separation Analysis as headway or gap (with overhang compensation).
- Major changes to the Custom List report, including virtual day and week summaries.
- Numerous new reports, including Event List report.
- New class schemes, including aggregation by scheme (replaces Superclassing).
- Binned count support in Event Count reports.
- User-definable header and footer.
- Automatic speed limit setting from site description.
- Additional speed limit thresholds.
- New time filter auto-wrap settings.
- File searching.
- New XSL transforms for exporting Custom List report to MS Office applications.
- Automatic direction setting in report Profile.
- Load/Save report Assembly.
- Profile version update feature.
