## MTE User Manual - Getting Started with Data Analysis

3.21

May 2009

# Overview

---

MCRReport is the data analysis component of MTE. The power of MCRReport lies in the time-stamped raw data produced by MetroCount RSUs. MCRReport takes the raw sensor-hit stream stored in MetroCount data files, also known as **datasets**, and interprets the data to produce almost any conceivable report.

This section introduces the process of generating a report using the **Report Wizard**.
